EXPERIENCE

- **Globant**
  Mobile Analyst and Developer
  Contributed to the development of a multiplatform application using Kotlin Multiplatform that performs intensive calculations and integrates Augmented Reality features. Focused on delivering high-performance experiences across Android and iOS platforms while maintaining a seamless AR interface.

  Analyzed the source code of a high impact mobile application to identify areas of improvement. Applied extensive knowledge and prior experience in team collaboration to elaborate the proposed solution.
  November 2024 - Present

- **Thoughtworks**
  Mobile Developer Consultant
  Led the development of cutting-edge Android features tailored to client needs. Collaborated with cross-functional teams to achieve project goals and deliver high-quality solutions. Utilized advanced technologies and industry best practices to enhance mobile application performance and user experience. Provided technical guidance and mentorship to junior developers.
  July 2023 - July 2024

- **Lazarillo**
  Android Engineer
  Lazarillo is an app that enables businesses to create accessible maps for visually impaired users. Developed and maintained the main app's codebase. Streamlined app releases by utilizing continuous integration and continuous deployment (CI/CD) processes. Led the development of an Android native library that is also used by clients with hybrid apps.
  August 2021 - July 2023
